

Phlebotomy

Technical Certificate

The Phlebotomy local certificate teaches infection control, blood-collecting techniques including venipuncture and skin punctures to provide samples necessary for lab analysis. Students will also learn techniques and procedures needed to assist with various lab procedures, including some specimen processing and CLIA-waived testing in Hematology, Immunology and Chemistry. Students participate in Phlebotomy Practicum at local healthcare facilities the last 2 weeks of the program.

Program Outline

TERM 1		
Course #	Course Title	Credits
3051331000	Phlebotomy 1 Phlebotomy 1 introduces the learner to basic laboratory skills including infection control, OSHA regulations, ergonomics, laboratory safety and specimen collection. The learner will also be introduced to venipuncture.	3.00
3051332500	Phlebotomy Practicum Phlebotomy Practicum (1 credit) is 72 hours gaining experience as a Phlebotomist in a clinical lab or hospital lab. The student will perform venipuncture under the supervision of an approved preceptor. The student will also adhere to infection control and safe practices, perform specimen collection, process specimens, comply with legal regulations and model professional behaviors. Prerequisite: 3051331000 Phlebotomy 1 (C or better).	1.00

Total Credits: 4.00

Talk with a Success Coach about the program outline. Together, you will determine if credits you've already earned satisfy any requirements, discuss possible alternative courses, and choose the best classes if you're thinking of transferring.
