

# IT Computer Support Specialist

## Associates of Applied Science

Learn the latest skills and technology to obtain jobs in business and industry where computer systems and networks are integral parts of an organization's infrastructure. Prepare to install, modify, and repair computer hardware and software, provide technical assistance and support for hardware and software systems, and analyze problems using automated diagnostic programs.

The Computer Support Specialist associate degree is a two-year program that prepares qualified individuals for help desk positions which provide technical support, assistance, advice, troubleshooting, training, and documentation to end computer users for hardware, software, and systems. The Computer Support Specialist has a working knowledge of computer hardware and software and their applications within wide area networks. The specialist is also familiar with the Internet, designing, developing, and publishing web sites; database design, development, and administration; basic computer network technologies; and low-level programming. The program also prepares the graduates to test for the A+ Certification, Cisco Certified Network Associate (CCNA), and other Information Technology Certifications. - See more at: [http://www.witechcolleges.org/explore\\_careers/Career\\_Program\\_Details.ph...](http://www.witechcolleges.org/explore_careers/Career_Program_Details.ph...)

## Program Outline

TERM 1		
Course #	Course Title	Credits
1015411500	Office Applications Associate This course explores Microsoft Word, Excel, and Outlook to an intermediate level. This course is aligned with the Microsoft Office Specialist: Associate (Office 2019) certification, which includes MO-100: Microsoft Word, MO-200: Microsoft Excel, and MO-400: Microsoft Outlook (Office 2019) certification exams.	2.00
1080119500	Written Communication Develops writing skills which include prewriting, drafting, revising, and editing. A variety of writing assignments is designed to help the learner analyze audience and purpose, research and organize ideas, and format and design documents based on subject matter and content. Also develops critical reading and thinking skills through the analysis of a variety of written documents.	3.00
1015110500	Digital Literacy with Cyber Security This course will cover identifying and differentiating between major computer components, Microsoft Windows operating system and application operations, computing environment issue troubleshooting, making connections between office network devices, file management, and basic cybersecurity threats and best practices.	1.00
1015011400	Network+ Fundamentals This course explores network cabling and hardware devices, switching and routing, security, addressing, Ethernet and wireless, LANs and WANs, operations and management, and optimization and troubleshooting. This course is aligned with the CompTIA Network+ (N10-008) certification exam.	3.00
1015417700	Web Programming Fundamentals Introduces the learner to the principles of web page development. In this course the students will learn to develop static web pages that contain text, images, and videos. Students will also link multiple web pages to produce a complete website.	3.00
1015211500	Database Fundamentals Students learn the fundamental concepts and applications of relational database tables using a hands-on approach. Topics include database architectures, data structures, planning, creation, inquiry, updating, input and output forms (reporting), and importation of data from an outside source for use in databases.	3.00

TERM 2		
Course #	Course Title	Credits
1080413400	<p>Mathematical Reasoning</p> <p>An activity based approach is used to explore numerical relationships, graphs, proportional relationships, algebraic reasoning, and problem solving using linear, exponential and other mathematical models. Students will develop conceptual and procedural tools that support the use of key mathematical concepts in a variety of contexts. This course is not designed for Science, Technology, Engineering, or Math (STEM) students and/or others who require calculus. Prerequisite: 7785478000 Principles of College Math (C or better) or Accuplacer Algebra score <math>\geq 35</math> or UW Math Placement Basic Math Skills score <math>\geq 250</math> or ACT Mathematics score <math>\geq 18</math> or Tailwind Math College Math Fund score <math>\geq 16</math>.</p>	3.00
1080919500	<p>Economics</p> <p>With a focus on contemporary issues, this introductory course covers cost-benefit analysis, economics systems of the world, globalization, supply and demand, market structures, the labor market, economic growth, unemployment, inflation, business cycles, money, and government economic policy. The course strives to help students improve their individual and household decision-making, understand business decision-making, comprehend the current national and international economic issues and policies, and critically evaluate government response to economic concerns.</p>	3.00
1015212000	<p>Introduction to Programming</p> <p>Introduces the learner to programming concepts using structured logic and basic concepts related to computer programming and program development. Programs will be developed using sequential, selection, and looping control structures, functions, arithmetic calculations.</p>	3.00
1015414000	<p>A+ Computer Essentials</p> <p>This course explores computer hardware, operating systems, software, networking, troubleshooting, virtualization, and security concepts. This course is aligned with the CompTIA A+ Core 1 (220-1101) and Core 2 (220-1102) certification exams.</p>	3.00
1015114000	<p>IT Security</p> <p>This course explores the threats, attacks, and vulnerabilities to an organization's devices, applications, and infrastructure throughout the enterprise. Tools, techniques, and technologies will further the exploration that help assess, secure, and monitor organizational assets as well as respond, investigate, and recover from incidents. This course is aligned with the CompTIA Security+ certification exam.</p>	3.00
TERM 3		
Course #	Course Title	Credits
1080119600	<p>Oral Interpersonal Communication</p> <p>Focuses upon developing speaking, verbal and nonverbal communications, and listening skills through individual presentations, groups activities, and other projects.</p>	3.00
1015015000	<p>Windows Client</p> <p>This course explores enterprise client operating system installation, configuration, performance, access, management, and protection. This course is aligned with the Microsoft 365 Certified: Endpoint Administrator Associate certification exams.</p>	3.00
1015018000	<p>Windows Hybrid Server Core Infrastructure</p> <p>This course explores enterprise server operating system on-premises server, cloud and Azure concepts, IP address management, DNS implementation, Active Directory, Group Policy, hybrid server and workload management, storage and file service management, virtualization and containers, and network connectivity. This course is aligned with the Microsoft AZ-800: Administering Windows Server Hybrid Core Infrastructure certification exam.</p>	3.00
1089010300	<p>Professional Career Management</p> <p>This course will cover identification of individual interests and the occupations they align with, finding employment, creating a resume and cover letter, participating in an interview, and best practices for maintaining professional employment.</p>	1.00

Course #	Course Title	Credits
1015113500	<b>Ethical Hacking</b> This course explores security penetration testing, system hacking, malware and sniffers, reconnaissance and enumeration, session hijacking and DoS, firewalls and honeypots, SQL injections and cryptography, and more. This course is aligned with the EC-Council Certified Ethical Hacker certification exam. Prerequisite: 1015114000 IT Security (C or better).	3.00
1015113000	<b>Cybersecurity Analyst</b> This course explores security vulnerability assessment and management, threat intelligence and hunting, system and network architecture, vulnerability assessments, network security and management, host-based attacks, and post-attack response. This course is aligned with the CompTIA Cybersecurity Analyst (CS0-003) certification exam. Prerequisites: 1015114000 IT Security (C or better) and 1015011400 Network Plus Fundamentals (C or better).	3.00
<b>TERM 4</b>		
Course #	Course Title	Credits
1080919900	<b>Psychology of Human Relations</b> Focuses on improving personal and job-related relationships through understanding and applying sound psychological principles. Topics include self-concept, motivation, emotions, stress management, conflict resolution, and human relation processes.	3.00
1015416500	<b>Project Management</b> This course explores project management principles and practices, including project initiation, project team roles and responsibilities, the Work Breakdown Structure (WBS), project schedule creation, resource planning and management, project budget and risk plan definition, project communications, change request processing and procurement documents, and project tools and documentation. This course is aligned with the CompTIA Project+ certification exam.	3.00
1015013000	<b>CCNA Networking 1</b> This course explores enterprise networking concepts, Cisco devices, IPv4 and IPv6 addressing, switching, and IPv4 and IPv6 routing. This course is the first of two aligned with the Cisco CCNA (200-301) certification exam.	3.00
1015014500	<b>CCNA Networking 2</b> This course explores enterprise networking wireless networks, WAN implementation, advanced switching, access control lists (ACLs), management, security, and cryptography. This course is the second of two aligned with the Cisco CCNA (200-301) certification exam.	3.00
1015417000	<b>Help Desk Fundamentals</b> This course explores IT service management within the ITIL framework, including customer service, end-user support, troubleshooting, helpdesk applications, and the creation and delivery of IT training to others.	3.00

**Total Credits: 61.00**

Talk with a Success Coach about the program outline. Together, you will determine if credits you've already earned satisfy any requirements, discuss possible alternative courses, and choose the best classes if you're thinking of transferring.

## What You'll Learn

- Manage Information technology hardware
  - Manage software
  - Support computer networks
  - Provide end user support
  - Solve information technology problems
  - Demonstrate customer service skills as an IT professional
  - Demonstrate the ability to write interactive programs using a web interface
- 

## Transfer Opportunities

Take a look at our transfer agreements to seamlessly transfer your degree to a 4-year university.
