

Early Childhood Education

Associates of Applied Science

Experience both academic theory and hands-on application through a series of practicums to develop an understanding of physical, social, emotional, and cognitive development of young children and acquire skill in planning and implementing programs that promote development. The program prepares you to work in a variety of early childhood education settings including child care centers, Head Start programs, school-age child care programs, and family day care homes. The Associate's degree also provides a foundation if you intend to continue your education at a four-year college or university.

Program Outline

TERM 1		
Course #	Course Title	Credits
1030716600	<p>ECE Curriculum Planning</p> <p>Examines the components of curriculum planning in early childhood education.
