The National Safety Education Center (NSEC) is one of 26 OSHA Training Institute Education Centers (OTIECs) in the nation. These education centers are a national network of non-profit organizations authorized by OSHA to deliver occupational safety and health training to public and private sector workers, supervisors and employers. Nicolet Area Technical College is not an OTI Education Center, but serves as a host training organization for National Safety Education Center.

OSHA 10 Hour Construction Industry

Course #: 4744948000

Course Description:

Workers are provided with general awareness about recognizing and preventing hazards commonly found in the workplace. OSHA recommends this training as an orientation to occupational safety and health. This course covers construction safety, health principles and OSHA policies, procedures and construction industry standards. Emphasis is placed on the most hazardous areas per OSHA standards. This course is taught by an OSHA authorized instructor. Participants who successfully complete the course will receive a card from OSHA certifying completion of the course. Workers can receive additional training on hazards specific to their job. 10 hours of mandatory and optional topics will be covered.
